Задание 01

The person below wants to find an art course to attend. Decide which art course would be the most suitable for her.

Nicola enjoys printing by hand. She wants to print the patterns she's created onto different materials, for her mother to make into clothes, and also learn basic printing techniques to use at home.

A - GET ARTISTIC

Teachers here always have ideas to get you drawing, painting and printing – but you can use your own material, too. The studio-based course focuses on portraits – you'll learn how to develop whatever you've brought, or use famous portraits, to create pictures of people. One-to-one sessions also available.

B - ART ATTACK

Learn how to create pictures, perhaps based on your own writing, to put into a short book or poster, using simple techniques that don't require technology. Discover, too, how to put a book together, with a professional-looking cover designed and handprinted by you. Perfect for anyone considering further studies in art.

C - ART AND IMAGINATION

If you like designing clothes, you'll enjoy learning to use special computer software here to create and print out designs for tops, shoes and hats that people would love to wear! You'll go home with a folder of work, perfect to present when applying for a higher-level art course. Individual classes also available.

D - CREATE!

Draw and paint in different situations – in the studio or even in the park! Gallery visits are also included, and you're taught how to base your work on studies of landscapes and portraits by well-known artists. Teachers also encourage you to experiment with various styles and methods.

E - MORE ART NOW!

Improve how you paint people and places on this studio-based course. The teachers bring in work, ranging from photos to posters, to give you ideas. And use the studio website to show your work and exchange ideas with other students – useful for anyone wishing to study art at a higher level.

F - ART WORKSHOP

Do some drawings, in the studio or outside, or bring along your own. The teachers

will then help you to turn them into wonderful printed designs, using simple methods you can try yourself after the course. You'll then transfer your designs onto cotton and silk, using special paints – perfect to use in sewing projects afterwards.

G - DO IT YOURSELF!

Try making art to go with your stories here – working inside or outside! You'll get ideas from books showing famous paintings and cartoons, and then create and print pictures of people to accompany your stories, using digital design techniques. There's even one-to-one teaching if you'd prefer.

H - THE STUDIO

Come and experiment with digital design. You'll get great ideas through research, then using special software, create your pictures and add details on screen, whether it's clothes, people, books or something to put on the wall. Upload your work on the studio website and get opinions from your classmates there – and comment on theirs!

The person below is doing a school geography project and wants to find a website to help her. There are eight descriptions of different geography websites. Decide which website would be most suitable for her.

Miranda wants to learn about some of the famous tourist sites in the world, and why they have become famous. She'd like to play games on the website to help her remember the information.

A - 'GEOVIEW'

This website has fantastic videos of animals in challenging locations, and information about how they manage to live there. There are also helpful tips on understanding geographical information, such as maps and diagrams of the Earth and its oceans. Users can also share information about useful links to follow.

B - 'GEOGRAPHICAL'

This website has lots of maps, quizzes and advice, to check your knowledge of what you've studied – and remind you of anything you've forgotten! There's a brilliant section about popular places in many different countries, which attract large numbers of visitors, with background historical details about the reasons these places are now so well known.

C - 'GEOGRAPHY.COM'

This website has interesting maps and details about places that have become famous tourist destinations in different countries, and also some famous geographical features around the world, such as the biggest mountains and rivers. There are also online tips available on how to research information for projects.

D - 'GOWORLD'

How do people live in places with very high or low temperatures in different seasons? Find out how people adapt to the climate they live in, how it affects their lives and what they do to stay warm or keep cool, as necessary. You can also upload your own stories about life in extreme temperatures in your country.

E - 'PLANET ZOOM'

Not sure how to understand the information included on maps? Here's a step-by-step guide to using them! The site also has games and puzzles about all the continents, including Africa, Asia and Europe, and important details about them, such as their huge size, and their mountain ranges, rivers and climate.

F - 'WORLDWIDE'

This website has lots of beautiful photos, maps and film clips to help you learn more about some of the highest – and coldest – peaks on the planet. You'll find plenty of amazing facts about them, together with details of the wildlife that makes its home in the surrounding areas.
